**PETITION TO REVIVE UNINTENTIONALLY ABANDONED
APPLICATION PURSUANT TO 37 C.F.R. § 1.137(b)**

Sir:

On February 5, 2004, the undersigned attorney received a Notice of Abandonment dated January 30, 2004, for the above-reference application. The Notice of Abandonment indicated that no reply had been received in response to the Office Action dated 10 June 2003.

Included with this petition is a copy of the Response to Final Office Action that was filed on August 14, 2003 (Exhibit 1). This response was faxed to the Patent Office, Attention: Examiner Bruce Snow. A copy of the confirmation of transmittal is included with Exhibit 1. The response was faxed to 703-746-3362, the same fax number that had been used to fax a proposed claim amendment to the Examiner on July 29, 2003 (Exhibit 2); a proposal that was successfully received by the Examiner.

Following the Examiner's receipt of the proposed claim amendment, the Examiner and the undersigned attorney had a telephone interview on August 11, 2003, to determine if an agreement could be reached with respect to the amended language. During this interview, the Examiner suggested that the Applicant describe the way the connector rotates relative to the

Petition to Revive for Unintentional Abandonment

horizontal leg instead of rotating about an axis of the leg. (See Interview Summary dated August 13, 2003, attached hereto as Exhibit 3). As a result of the interview, Applicant faxed to the Examiner a proper response to the June 10, 2003 Office Action on August 14, 2003. For this reason, the Applicant believes that a proper response was timely filed and that any abandonment of the application was unintentional.

Because the Applicant believes that his response was filed in a proper and timely manner he does not believe he should be charged for this petition. If, however, the Commissioner believes a charge is warranted, he is asked to charge the fee to Deposit Account 07-0181. A duplicate copy of this Petition is enclosed herewith.

Respectfully submitted,

David A. Frey, Reg. No. 43,618
